You're Medicare Coverage

Medicare has a yearly deductible, currently of \$155.00. You are responsible for payment until deductible has been met.

Medicare, in most cases, can also have a Co-Ins percentage of your visit that is due by you.

Your Medicare coverage only covers acute problems. An Affidavit document must be completed upon each event triggering necessity of care along with an ABN form.

Medicare guidelines suggest that we can only bill for Spinal Manipulation care until your problem has reached its maximum potential to improve. X-Ray's and Exam's are Non-covered services by Medicare.

Once a condition has reached its maximum potential for improvement a new ABN form must be signed for Non-covered Care payable by patient if denied by Medicare.

If you have injured yourself or have a new acute problem, please let us know so a new Affidavit and ABN can be filled out.

Please feel free to talk with Heather or Laurie about this at any time.

Thank you for your trust in us.

Sincerely,
Ramona Iwan
Billing Clerk
